

## DANCER'S EDGE COVID-19 PROCEDURES

*To follow are new guidelines to ensure our health and safety ~ July 6<sup>th</sup> 2020*

*Parents, upon arrival, please find parking and remain in your car with your child until you see a Dancer's Edge staff member outside the front door at the start of the class. The lobby will initially remain closed. Please observe the markings on the sidewalk where your child will wait their turn to enter and then be escorted to their spot in the classroom. We will be checking your child's temperature once inside. Any student with a temperature reading higher than 100.4F will not be admitted. Hand sanitizer will be available by the front door, and the restroom will be sanitized after each use. Once they are in the studio, students may change into their dance shoes. Once everyone is situated, the teacher will show their students where to put their street shoes. All the spaces in the studio are marked so we keep our 6' distance. In between classes, we'll be disinfecting entrance/exit door handles and ballet barres. The staff will be wearing masks and we recommend students to wear them also. After class, all students will exit through the front emergency exit door via the ramp, where your child's teacher will see them to their car before we begin the process with the next class. Please ensure you arrive promptly for your child's class and again in good time to collect your child, so as not to cause disruption to other classes.*

*The above procedure is an addendum to the waiver on the signed registration form for the current dance year, and by entering the premises, you hold Dancer's Edge, Inc. harmless of COVID-19 as we are taking every precaution outlined by the CDC.*
